

The Hebrew University of Jerusalem

All work & no play?

The **Hebrew University of Jerusalem** offers you two rather different study experiences this summer.

Spend two weeks diving in the Gulf of Eilat, exploring human impact on the fragile coral reefs with leading marine biologists. Or join a major archaeological dig – a Roman fort, a biblical community, even a 7,000-year-old village in the Jordan valley.

All this alongside our world famous politics, history, literature and *ulpan* (crash course Hebrew) programmes, ranging from three to twelve weeks – all with excellent teachers and guides. Build your own dream summer of learning. Call Shoshana on 020 7691 1478 or email shoshana.bloom@bfhu.org today.
