

The Hebrew University of Jerusalem

Alarm over books!

We are the People of the Book. And today our children are not only the people of the book, but also the online library, the e-journal and the multimedia lab. At the Hebrew University, urgent work is under way to bring 14 ageing libraries into the 21st century, making thousands of ancient and modern texts available to students in the humanities, arts and sciences.

The **British Friends of the Hebrew University** need your help. Adopt a book from as little as £25, sponsor an e-journal subscription, or even buy a whole shelf.
