

1. Combatting Decreasing Trust in Our Government Institutions

Opinion- Prof. Elyakim Rubinstein
Prof. Rubenstein addresses the process of legislative reform and how we can work to strengthen public trust in our courts through increased public engagement, transparency and efficiency

2. HUJI Pride

Three Hebrew University researchers- Prof. Yossi Buganim from the Department of Developmental Biology and Cancer Research, Prof. Ofra Benny from the School of Pharmacy, and Prof. Uri Banin from the Institute of Chemistry, were awarded ERC grants in recognition of their groundbreaking research achievements.

3.

Interest in Residential Expansion- Just Not in Their Backyards...

A recent study led by Prof. Sharon Gilad from the Department of Political Science and the School for Public Policy reviewed the responses of local politicians and public officials in the face of public calls for municipal expansion projects and increased residential construction.

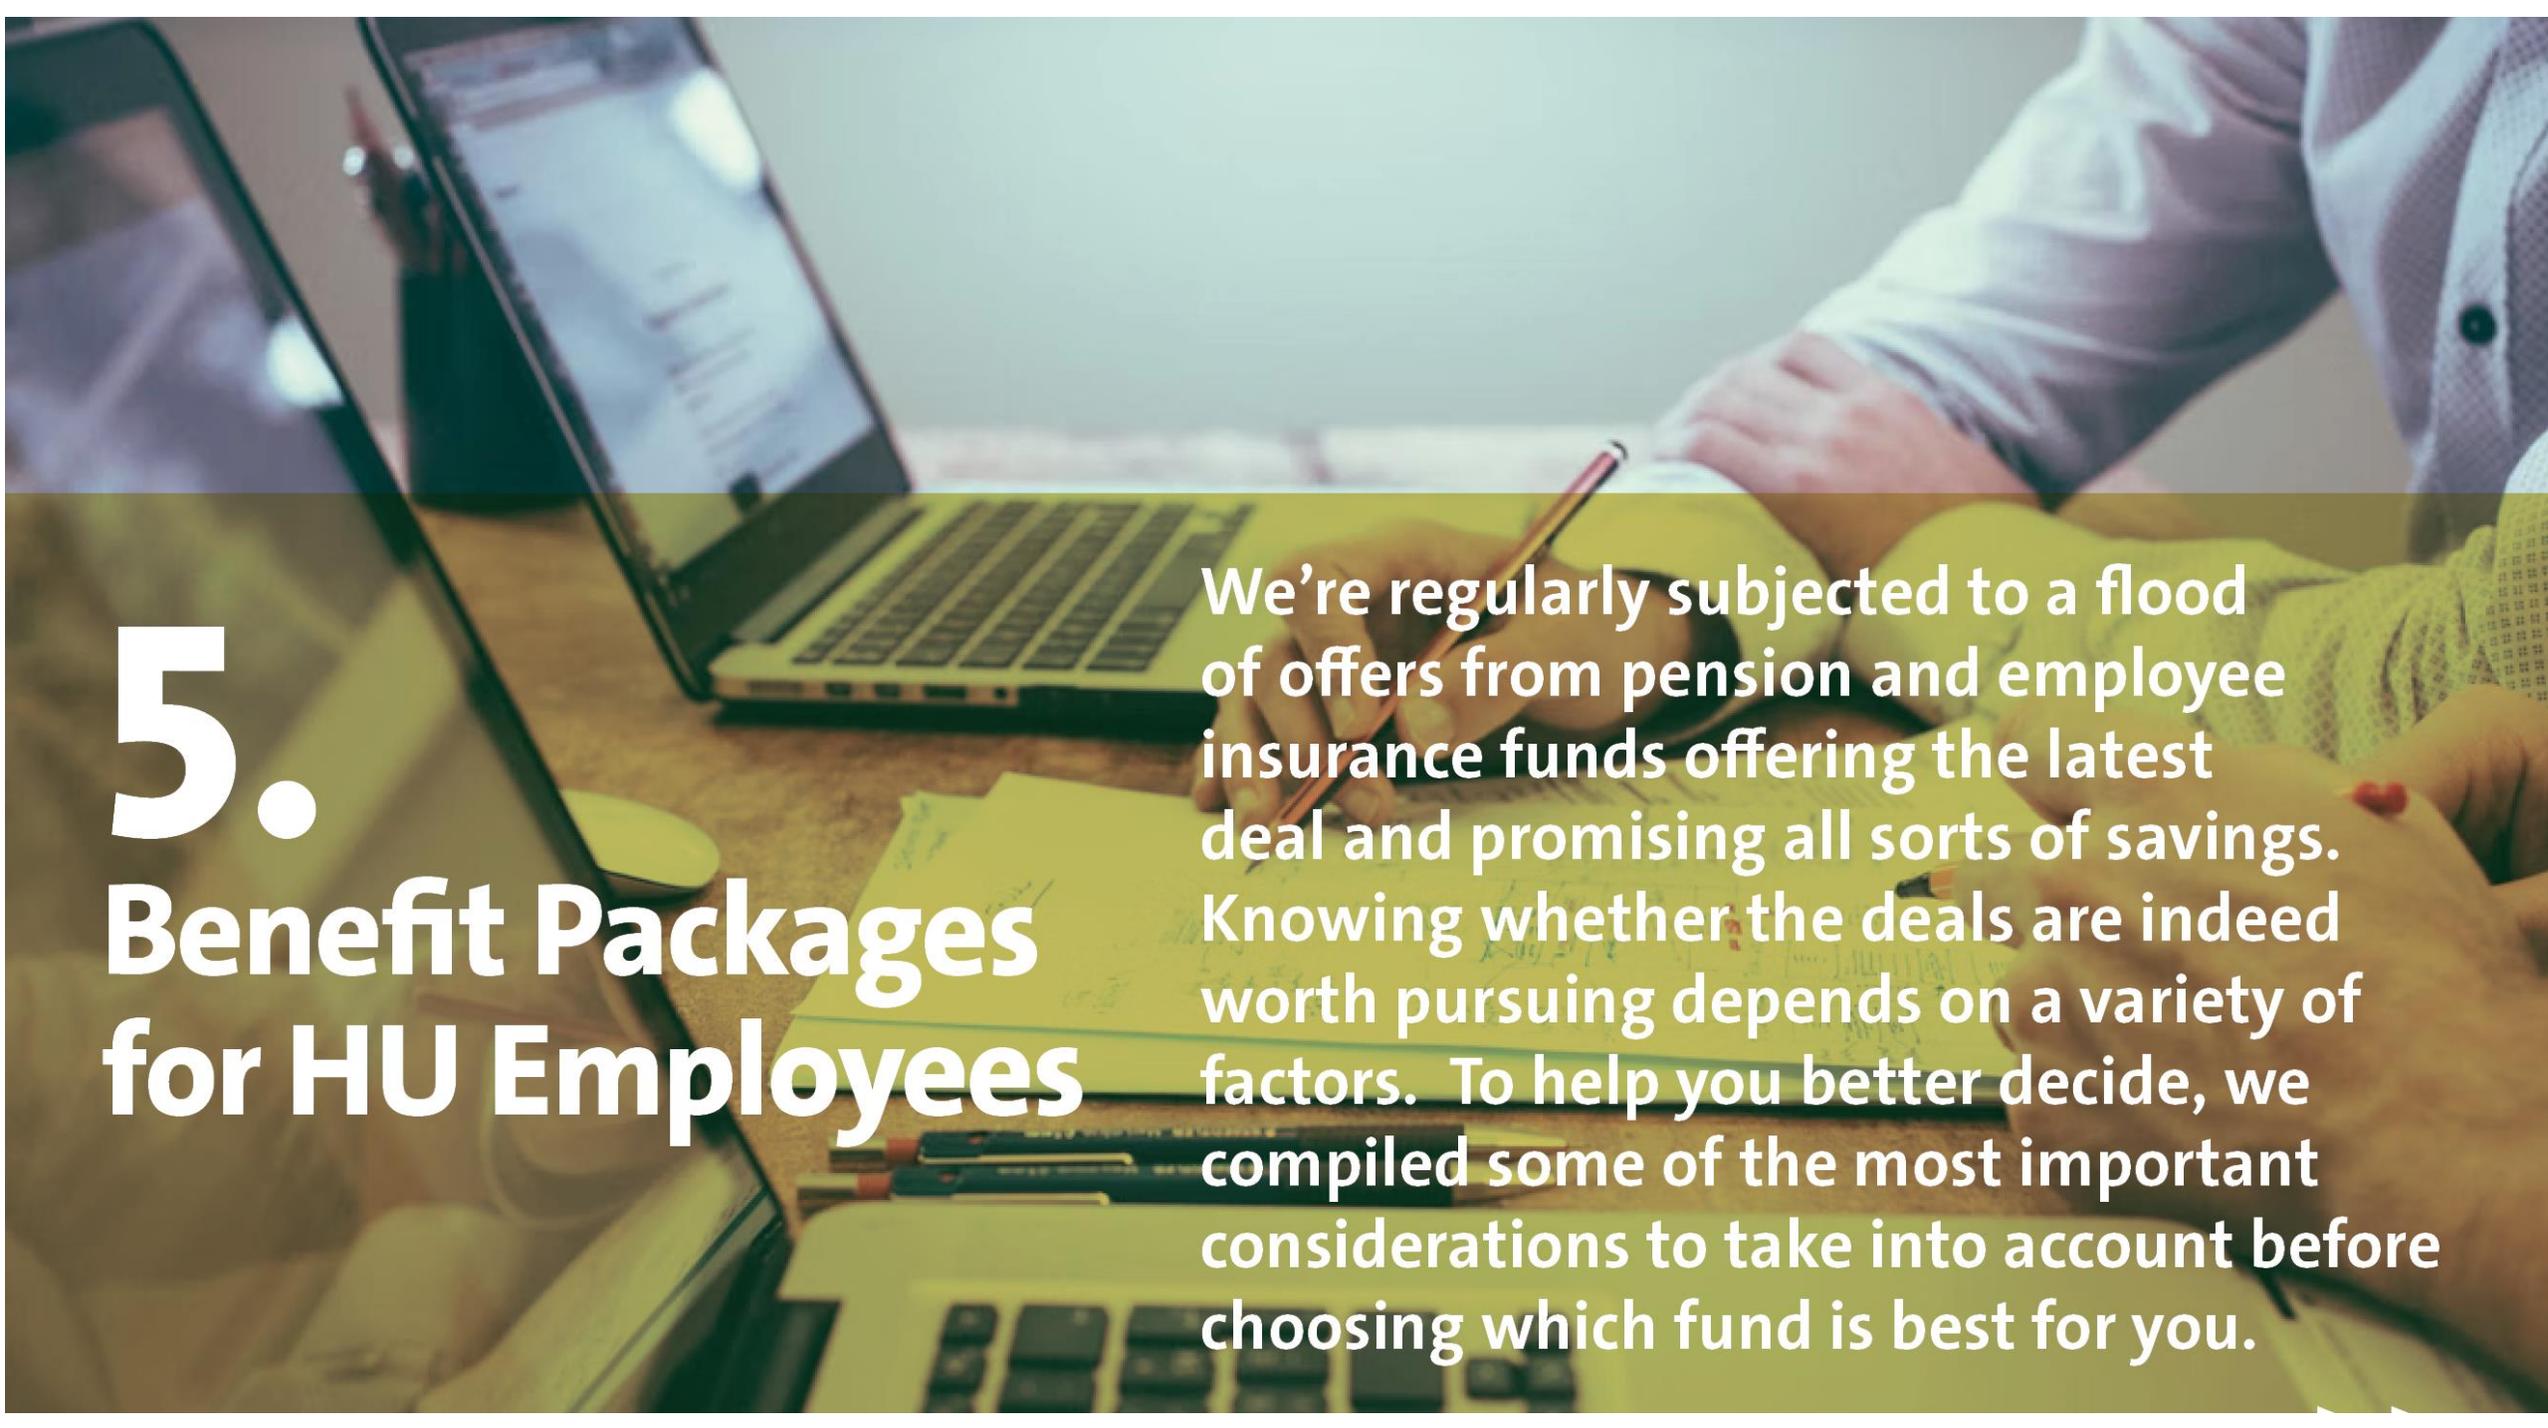

25.2

Open Day

Friday, 13:00–09:00

Faculty of Agriculture, Food and Environment, Rehovot

**Agrotech | Foodtech | Biotech | Environmental Sciences
Amirim Program in Excellence | Agro Informatics**

A person in a light blue shirt is sitting at a desk, writing on a yellow notepad with a red pen. In the background, there is a laptop and a tablet displaying data. The scene is lit with a soft, warm light, and the overall tone is professional and focused.

5. Benefit Packages for HU Employees

We're regularly subjected to a flood of offers from pension and employee insurance funds offering the latest deal and promising all sorts of savings. Knowing whether the deals are indeed worth pursuing depends on a variety of factors. To help you better decide, we compiled some of the most important considerations to take into account before choosing which fund is best for you.

The Latest from HUJICast

**Journey to the Center of the Earth –
Dr. Yaakov Weiss**

**We spoke with Dr. Yaakov Weiss from
the Institute of Earth Sciences to better
understand fascinating questions like how
long it takes a diamond to form and what
can we learn from these minerals hidden
deep beneath us. And will we too one day
turn into diamonds?**
